1. The following is an examiner's statement of reasons for allowance: While the use of water based materials, such as polyvinyl alcohol, as barrier layers adjacent to photopolymeric holographic layers to prevent diffusion of plasticizers and the like into the holographic layer from adjacent layers, including adhesive layers, is known, the provision of a water soluble layer between the hologram and the second, adhesive, heat seal layer is considered unobvious based upon the claimed destruction of the hologram upon attempting to peel the hologram from the article to which it is applied (the application member) as merely soaking the hologram laminate in water would allow its removal. The use of water based adhesives would suffer from the same defect.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The reference cited discuss barrier layers or disclosed similar holographic transfer foils.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Martin J. Angebrannndt whose telephone number is 571-272-1378. The examiner can normally be reached on Monday-Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
